SUBJECT INDEX

Advertisements, characteristics of teenage food 199
Apparel products, satisfaction/dissatisfaction 151
Apparel purchase behaviour, does attitude predict 161
Apparel, less restrictive trade in 327
Apparel, quality of 337
Calcium, potassium and sodium ion levels in yogurts in Northern Ireland 125
Children, participation in household tasks 271
Chlorofibre thermal fabrics, in simulated consumer use 263
Cleaning equipment, used in maintenance of stairs 369
Clothing maintenance, time and energy management of 67
Clothing-related risk perceptions, of disabled 313
Co-operative pre-schools, cost and programme availability in 285
Commuting expense, fuel efficiency 79
Consumer behaviour, primary school children 175
Consumer characteristics, relationships with do-it-yourself activity 39
Consumer debt, credit cards and technology 293
Consumer satisfaction of retirees 113
Credit cards, new technology and consumer debt 293
Debt, credit cards, technology and consumer 293
Disabled men and women, clothing-related risk perceptions of 313
Discount retailer, perceptions of the 101
Discount store, consumers' and managers' ideal 101
Do-it-yourself behaviour 39
Elderly people, health beliefs and food supplement use by 247
Electronic control, household appliances 91
Energy conservation, optimal results 219
European Growth Unit Trusts 21
Family choices, household production 359
Father role, father–child interaction in work 189
Food supplements, elderly people using 247
Food-shopping behaviour, in countries that are becoming industrialized 53
Footwear, quality of 337
Fuel efficiency, commuting expense 79
Health beliefs, consumer 247
Heating practices, changes by Alabama residents in 237
Household appliances, impact of electronic control 91
Household production, family choices in 359
Household tasks, children's participation in 271
Industrialization, food-shopping behaviour in countries becoming industrialized 53
Iron salts, soy sauce fortified with 213
Laundering low-temperature, disinfectant action 61
Laundry practices, line-drying and load characteristics 307
Line-drying, laundry practices 307
Money resources, a predictor of shopping time 1
Polyester, in simulated consumer use 263
Polypropylene, in simulated consumer use 263
Pre-schools, cost and programme availability in co-operative 285
Retailers and apparel imports 129
Savings, how safe was Europe for 21
Shopping time, predictors of 1
Situational factors, as predictors of shopping time 1
Soy sauce, iron in commercial 213
Stairs, maintenance cleaning of 369
Television advertisements, children's participation in household tasks as portrayed by 271
Textiles, less restrictive trade in 327
Thermal fabrics, chlorofibre 263
Time demands, as predictors of shopping time 1
Washing equipment, used in maintenance of stairs 369

AUTHOR INDEX
